PM PICKER GUIDE

Practice Management System Recommender

A tool for 🇺🇸 US tax & bookkeeping firms

Why should I trust you!?

- ☐ No affiliates deals
- ☐ No selling leads
- ☐ No back-door deals
- ☒ I'm not a sales person

I've worked with over a thousand accounting firms in the past two years, on every platform imaginable. I'm probably just the most informed friend you have on the subject.

What was the last system you used for practice management, before the system you use now?

Approximately when did you change systems?

In 2-3 sentences, what would you tell a firm like yours about the change? Traps to avoid, or any regrets?

Last, to ensure you're a real firm and a PM didn't ask you to leave these comments, who are you? A link to a LinkedIn profile, website, or something else convincing will do.

34 practice management systems entered, only 9 remain, my top recommendations ✨PLUS✨ a quick way to get a rec personalized for your firm:

If you're a 🇺🇸US firm that does tax and/or bookkeeping work, you should be entering 2025 on one of these 9 systems:

[Qount](#)
[Karbon](#)
[Canopy](#)
[Firm360](#)
[TaxDome](#)
[Client Hub](#)
[Keeper.app](#)
[Financial Cents](#)
[Uku - Accounting Practice Management Software](#)

I put together a tool that will take this even further, giving you 1 top recommendation, and 2 secondary recommendations depending on the type of firm you run. Only takes a few minutes, no email required, find it here: <https://lnkd.in/gni9vag9>

Your PM is the most important tool in your firm 🧠

I burned 3 years of productivity choosing the WRONG system (Practice CS) because I got suckered by a sales person and the marketing trap of "integrations".

I burned 4 years running my accounting practice on a mainstream tool (ClickUp) because I thought what I needed was the ultimate creative canvas (these are the people who will fight me most). Almost everyone I talk to has gone through this phase, and nearly all returned to industry tech.

Also let me know below, what PM did you get? Agree or disagree? Is your PM *certified fresh™*?

What we are:

Scarce
Experts
Mentors
Advisors
In-demand

What we aren't:

Document gatherers
Personal assistants
Overpriced admins

**When clients don't understand

Client Portal

The screenshot shows a 'Client Portal' settings dialog box. It has a title bar 'Client Portal'. Below the title bar, there are two sections. The first section is 'Client portal login' with the email 'davidagconstruction2@gmail.com' and an 'Unlink login' button. The second section is 'Client portal permissions' which contains a list of permissions for 'Anderson & Garcia Construction'. Under 'Document settings', the 'View Files Tab' is checked with a green checkmark and has a help icon. At the bottom of the dialog are 'Save' and 'Cancel' buttons.
