

# Smart Intake

## PLAYBOOK

Canopy's new Smart Intake feature streamlines the onboarding and re-engagement process with AI-powered tools that automate document collection, pre-fill client data, and trigger internal workflows.

This rollout playbook equips admins and operations leaders to configure the system, train teams, and drive adoption across tax and bookkeeping services. The result is faster client readiness, reduced admin burden, and more consistent service delivery.

**Hi there,**

We built Canopy's new **Smart Intake** experience to help your firm convert leads into paying clients faster, cleaner, and with far less manual work.

This playbook gives you everything you need to:

- Train your internal team on the new smart intake features
- Customize intake flows for your firm's services (tax, bookkeeping, etc.)
- Roll out the features with minimal disruption
- Drive adoption with your staff and clients

Let's help your team collect everything you need from clients up front so you can start the work faster.

# 02. WHAT'S NEW ✨

FEATURE	DESCRIPTION	BENEFIT
AI Document Renaming & Classification	Automatically rename files using AI and enforce naming standards.	Consistent file naming with no manual effort.
AI Document Matching	Match uploaded docs to request list items (even bulk/nested).	Eliminate manual checklist matching.
AI Questionnaires & Checklists	Auto-generate forms and document request lists from prior data.	Reuse past data to get started faster.
AI Pre-Fill	Pre-populate answers in client questionnaires.	Reduce redundant data entry.
Manual Document Checklists	Create custom one-off checklists.	Flexibility for niche workflows.
Secure Links & Client Portal	Clients can submit data via secure links or the portal.	No login required for link-based workflows.
Engagements + Task Automation	Auto-generate tasks when engagements are accepted.	Set it and forget it—automated internal prep.
Payment Info & Recurrence	Collect/store payment data, run recurring payments.	Smooth billing operations.
Client Reminders & Auto Emails	Automate status updates and follow-ups.	Let Canopy handle the “nagging.”

# 03.

## ADMIN SETUP CHECKLIST

Before you train your team, use this checklist to get everything organized. Consider working with your stakeholder group to divide and complete tasks.

- Configure your settings, including:
  - Set [permissions](#) for team access
  - Customize secure [link branding](#) (if applicable)
  - Set up your [Global File Naming Convention](#)

---
- Configure standard [engagement templates](#), including [task automations](#).

---
- Build one or many intake [questionnaires](#) by service line (tax/bookkeeping/etc.)

---
- Test [auto-reminder](#) and [email](#) workflows

---
- Validate [AI pre-fill](#) performance with existing data

---
- Identify key services for first rollout (e.g., tax only)

# 04.

## SAMPLE: INTERNAL TEAM TRAINING TEMPLATE

**(30-Minute Session)**

**Objective:**

Admins will introduce the new Smart Intake features and guide the team through common workflows.

TIME	TOPIC
0-5 min	Welcome + Goals of Intake Automation
5-10 min	What's New: Features Demo (via interactive demo pain point callouts)
10-20 min	Role-Based Workflow Walkthroughs (Tax, Bookkeeping)
20-25 min	Common Questions & Known Limitations
25-30 min	Live Q&A & Feedback Collection

**Key Talking Points:**

- We can now collect info with far fewer follow-ups.
- AI helps us prep faster without needing more staff.
- Secure links reduce friction for clients hesitant to use the portal.

# 05. INTERNAL ANNOUNCEMENT TEMPLATE

Slack, Teams, or Email:

**New Feature Alert: Smart Intake Automation is Live!**

We've launched Canopy's new intake features, including AI Document Request Lists, questionnaires, and reminders. These tools will save hours of admin time and help us start work faster.

- ⚙ Intake checklists by service
- 🔒 Secure client submission links
- 🕒 Auto-reminders and pre-filled data

Training is happening this [date/time].  
Check the calendar invite!

## CLIENT COMMUNICATION TEMPLATES

Email – Notify Clients of New Process:

The image shows a screenshot of an email client interface. At the top right, there are window control icons: a minus sign, a maximize icon, and a close 'X' icon. Below these, the email header area contains a recipient name (represented by a grey bar), a 'Cc Bcc' link, and a subject line. The main body of the email contains the following text:

**Subject:** A Faster Way to Share Info With Us

Hi [Client First Name],

We've updated our intake process to make it faster and easier for you to share the info we need to get started.

- Fill out Questionnaires with AI
- Simple checklists for document uploads
- No portal login required – just click a secure link

You'll receive your intake packet soon—let us know if you have any questions!

Thanks,  
[Your Firm Name]

At the bottom center, there is a rounded rectangular button with the text 'SEND' in all caps.

# 07.

## BEST PRACTICES BY USE CASE

### TAX FIRMS

- Use AI to generate personalized checklists based on prior-year proforma data
- Leverage [auto-reminders](#) for document deadlines
- Send engagement, automate task creation, manage billing workflows

### BOOKKEEPING

- Request receipts and transaction data early and often
- Configure recurring document requests monthly
- Use AI document renaming to organize uploaded receipts

### ADVISORY / MISC.

- Customize questionnaires to reflect discovery or planning needs
- Automate follow-up tasks after intake packet is submitted

# 08.

## CLICK-SAVING FEATURES

### Top Time-Savers:

**Auto-Match:** Upload a combined PDF → Canopy splits & matches to checklist

**Pre-Fill:** Clients see 80% of their answers already completed

**Engagement Acceptance** → Auto-create project tasks and reminders

**Automated Reminders:** Schedule follow-ups for multiple clients at once

# 09.

## ADOPTION & SUCCESS METRICS

METRIC	HOW TO MEASURE
<b>**% of clients using intake forms</b>	Completed vs. sent forms
<b>Time from form sent to work started</b>	Intake sent to project management kickoff
<b>Reduction in follow-ups</b>	# of reminders sent pre/post rollout
<b>Internal admin time saved</b>	Manual hours vs. AI-automated actions
<b>Client satisfaction</b>	NPS or short feedback post-intake acceptance
